About Me

I am a Graphic and Print Designer with a deep passion for all things creative and a huge desire to help other people and make a positive difference to their lives.

I have over seven years' experience as a Designer, with over five of those working in a professional studio environment. In that time, I've shown an ability to deliver innovative and creative assets across a range of mediums, bringing new ideas to life within the boundaries of a defined brand identity, and collaborating in a fast-paced setting.

Meticulous, self-motivated and well-versed in design theory, I'm seeking to further my career in the Graphic Design industry, whilst making a difference to the world and all who live in it.
